NATUREFRIENDS INTERNATIONAL

A global movement for nature, people and a good future for all.

From hiking and outdoor experiences to climate action and sustainable tourism, we create opportunities to experience nature, connect people and shape a better future.

40+ countries • 350 000 members

Places that bring us together

A network of more than 700 Naturefriends Houses in Europe and beyond.

Naturefriends International

since 1895

- A global movement
- Experiencing Nature
- Connecting People
- Shaping our Future

Experiencing Nature

Nature is where it begins.

We hike, cycle, travel, explore and spend time outdoors. We believe that experiencing nature creates a connection — and that people who know and love nature are more likely to protect it. Unrestricted access to nature for all people is at the heart of Naturefriends.

Connecting People
Shaping Our Future

Different places. Different cultures. One movement.

Naturefriends bring people together across borders and generations. Through shared experiences, international cooperation and local action, we build bridges, strengthen solidarity and create a sense of belonging.

From local projects to international campaigns, we take action for:

- Nature
- Climate justice
- Sustainable tourism
- Solidarity
- Social responsibility

From words to action:
The Naturefriends Climate Fund supports locally led initiatives of African Naturefriends that strengthen climate resilience.
